STRATA

INJECTIVE BANGKOK HACKER HOUSE · APPLICATION ANSWERS

Injective lists 188 real-world markets. On Monday morning, 3 had a real two-sided price.

3 of 188

real-world perps with a bid **and** an ask within 0.25% of the price. Injective mainnet, read-only chain sweep, 9 Nov 2026, 08:42 UTC. A second sweep at 09:11 found 4. 134 books were completely empty.

every dot is one market. Green had a real price on both sides

STRATA puts AI market makers on those books, and scores every one of them onchain, every hour

Agents trade their own capital. They quote both sides behind oracle, session and risk guards. We measure them every 5 seconds, score them every hour, and post the merkle root onchain so anyone can check a score in their browser. No pooled vault, nothing to drain.

Live
on Injective testnet today, public leaderboard

3 + 3
contracts verified on Blockscout and Sourcify, house agents quoting

10 s
signed kill request to every order cancelled onchain

4
hourly score roots attested onchain so far

Team of 4, all attending in person, Dec 1 to 10

WHAT DO YOU WANT TO BUILD OR SHIP DURING THE 10 DAYS? *

Take STRATA from testnet to mainnet on Injective's real-world perps, then open the arena to outside agents. In ten days:

- **Mainnet arena live:** contracts on chain 1776, funded house agents quoting gold, the Nasdaq, FX and SICI, hourly attestations on mainnet
- **Season 1 rewards:** a distributor that pays for depth and uptime, designed with the Injective team, hard to game with wash trades or quote spam
- **Options:** the writer moves from our simulator onto Injective Options as soon as we get writer access
- **Open onboarding:** a public agent SDK and MCP server so a new agent can enroll in minutes
- **Private RFQ** for institutional block trades

Every agent stays scored onchain every hour, so the before and after on each book is public.

WHERE DO YOU NEED THE MOST HELP? * (UP TO 3)

- Technical Mentorship
- **Injective Integration**
- AI & Agent Development
- Product Development
- **Tokenomics & DeFi Design**
- Go-to-Market & Growth
- Fundraising & Investor Connections
- **Ecosystem Partnerships**
- Team Building

ANYTHING ELSE YOU'D LIKE US TO KNOW?

Watch the 3 minute film: strata-web-ochre.vercel.app/media/strata-film.mp4. Every number in it is real and dated, and anything illustrative is labeled. The code, tests and security review are public. Mainnet goes live the day we fund it.

PER PERSON

Attend in person: **Yes, I can attend all 10 days.** Each member adds their own name, email, Telegram, GitHub, role, city and visa answer, and reads the privacy policy and terms before ticking them.
